MEETING MINUTES

- I. Diane Kilgore proposed a MCC community project to promote creativity and discussion about the Tuck's Point Rotunda. Discussion proceeded on what that might look like and how to fund it. There was concern that the timing was too close to the end of the summer to organize the project properly. Diane Kilgore volunteer to investigate the idea with the town.
- II. Member recruitment was discussed as a concern. Diane proposed the junior volunteers and there was discussion on how that might work but no consensus.
- III. The issue of how to advertising grant application opportunity and timelines to the community was raised. The consensus was to use the local papers and social media closer to the application submission time.
