### **THE WATERLINE**

Greetings Boaters,

Please be sure to renew your spot on the waitlist and /or waterway permit before **March 31<sup>st</sup>**. Failure to do so will result in the permanent loss of your spot on the waitlist or your mooring site. The harbormaster may perform no renewals after March 31<sup>st</sup>. Don't delay. Although harbormaster hours are posted on this newsletter please call before coming to the office as I have been called for jury duty.

### **Safe Boating Course Offered**

An Environmental Police and NASBLA certified safe boating course will be offered in Manchester this March. Classes will be held at Seaside One on March 18<sup>th</sup> and 19<sup>th</sup> with an exam on the 19<sup>th</sup>. Classes will run from 3:30PM to 9PM. Safe boating certificates will be issued to all students with a passing grade.

Please contact the harbormaster to sign up for this important course. Class size is limited to 15 and there are still some seats left.

"PS" was originally built for the Father of the current owner, by the Pearson Corporation, and has been in the family since then. She is in a yard in Gloucester, MA, where she can be seen.

A great boat for cruising or day sailing. The roller reefing main and jib make it easy to single hand, to immediately adjust sail area for changes in wind and sea conditions, and to get underway or stow sails quickly.

### **Marine Mammals**

A **beached whale, dolphin or porpoise** should be reported immediately and left alone pending further instruction. **Call the New England Aquarium's 24-hour Marine Animal Hotline: (617) 973-5247.** Please try to remain calm and leave your name and a phone number where you can be reached.

**Sea turtles** in our region do not typically come ashore unless they are seriously debilitated. **Call the New England Aquarium's 24-hour Marine Animal Hotline: (617) 973-5247.** Please try to remain calm and leave your name and a phone number where you can be reached.

**Seals** belong on the beach. It's normal. Please don't disturb them. Unlike whales or dolphins, seals are semi-aquatic and are comfortable out of the water. Most seals come onto beaches to sleep, nurse or soak up some sun.

**What should you do if you spot a seal on the beach?**

Seals are cute, but they are wild animals and should not be disturbed. By getting too close, you could upset the seal or possibly get bitten.

- **Watch quietly** from at least 150 feet away.
- **Keep dogs away** from the seal.
- **Do not** offer the seal food or water.
- **Do not** pour water on the seal or try to cover it with a towel or blanket.
- **Do not** try to make the seal move.
- **Does the seal look injured or unhealthy?**

Most seals on the beach are perfectly healthy, but sometimes they do need human assistance. Does the seal have any **obvious injuries, gunky eyes, or look skinny or underweight**? If the seal does, please take notes on its location, size, coloring and behavior and call the New England Aquarium's Marine Animal Hotline at **(617) 973-5247**.

All marine mammals are protected by the Marine Mammal Protection Act. This law makes it illegal to touch, disturb, feed or otherwise harass marine mammals without authorization.
